

Dizziness? Not anymore!

“I’m so glad I accepted the referral given to me”

Julia had suffered from a concussion which left her with damage to her neck area and dizziness.

Under care for less than a year, Julia already feels improvements in standing straighter, returning to good balance, having the ability to exercise and the ability to lie down without dizziness! She was able to avoid medications and their side effects under care.

“Dr. Kramer is quite knowledgeable and quick to know what to do”
