

Maintaining Health Through Chiropractic

Meet Mike. He is a licensed Master Electrician who manages lighting orders for large projects across the United States. Mike is an avid hockey player and enjoys his time on the ice playing and exercising!

Mike has been a loyal Revolution patient for over ten years. He first sought out chiropractic care for his chronic neck, mid back, and lower back pain. Over the years, he also experienced hip inflammation off and on; however, after being under consistent chiropractic care, his chronic pain has been relieved and he is able to take less medication and play more hockey!

At Revolution, we always enjoy a day when Mike comes into the office. He may be quiet, but he always brings a sweet smile and kind demeanor. It is easy to celebrate patients like Mike who have seen long-term benefits due to consistent care.

"I have been a patient for 10 years. I continue to have weekly visits for health maintenance, and to straighten me out after playing hockey!"

~Mike
